is a 501(c)(3) nonprofit  
organization.*

*"My first RightPath screening was an amazing experience. Their techs were so totally knowledgeable and professional, friendly and helpful. I learned so much in a short period of time. Now I've had my 2020 screening and I have decided to make this an annual event. It was the same wonderful experience with the same wonderful techs. I'll be back again next year!*  
Catherine

HEALTH SCREENINGS  
*Now you know.*

## CARDIOVASCULAR SCREENINGS

### HEART ULTRASOUND

Screening visualizes the heart valves, measures systolic function, the motility of the left ventricle, ejection fraction and dimensions of the atrium and ventricles.

### ATRIAL FIBRILLATION

Atrial Fibrillation is a heart rhythm problem found in almost one in every 150 people causing palpitations, shortness of breath, fatigue and risk of stroke.

### STROKE SCREENING

(CAROTID ARTERY ULTRASOUND)

Stroke is the most common cause of long term care admissions in the US. This screening visualizes the level of plaque buildup in the carotid arteries.

### THYROID ULTRASOUND

Screening detects cysts, nodules and other abnormalities that may indicate signs of thyroid disease.

### PERIPHERAL ARTERIAL DISEASE

(PAD)

Peripheral Arterial disease (PAD) is a condition where blood circulation is restricted in the legs. It affects over 8 million Americans. This screening detects signs of circulatory problems in the lower extremities.

## ABDOMINAL ULTRASOUND SCREENINGS

### ABDOMINAL AORTIC ANEURYSM

Aneurysms form as a result of weakening in the arterial wall. This ultrasound screening detects aneurysms in the aorta which is the largest artery in the body.

### LIVER

The screening scans for cysts, nodules, masses and texture/density/size changes in the liver.

### KIDNEY

The screening scans for cysts, nodules, masses, stones, fluid and other abnormalities.

### GALLBLADDER

The screening scans for stones, sludge, wall thickening and other abnormalities

### PANCREAS

The pancreas is an important organ providing essential hormones and digestive enzymes. This screening detects small lesions, abnormalities and other signs of disease.

### SPLEEN

The spleen is an essential organ to the immune system and red blood cells. The screening detects any enlargements and other abnormalities.

## ALL 11 SCREENINGS FOR ONLY \$200.00
